

The Chabad House of Greater Boston was established in 1980.

It very quickly filled up with university students looking for a place to daven, a place to learn Torah, celebrate holidays, a place to meet other Jewish students, socialize & shmooze and most importantly a place that welcomes every Jew unconditionally.

Many thousands consider the Chabad House their home away from home, during their years studying in Boston.

Fast forward 40 years. The building is worn out, desperately in need of a major makeover, update and renovation. We planned extensively and five months ago the work began. Plumbing, HVAC, walls, ceilings and floors. Interior and exterior work.

Improving, upgrading and installing what the building needs to be fully functioning in a more beautiful way for the next forty years!

Now we are giving you the opportunity to partner with us.

You're invited to sponsor part of this project in honor of or in memory of someone significant to you.
